In addition, the recovery provision of this tariff provides for collection or return of the balance in the RBA, and recovery or refund of the previously established Rate Adjustment Mechanism ("RAM") Revenue Adjustment, Annual Revenue Adjustment ("ARA"), recovery or refund of the Earnings Sharing Adjustment or predecessor Earnings Sharing Revenue Credits, refund of Major Capital Projects Credits and Baseline Capital Projects Credits provided in the RAM Provision, any revenue adjustment provided in accordance with the Performance Incentive Mechanism ("PIM") Provision, recovery of any costs approved under the Major Project Interim Recovery ("MPIR") or Exceptional Project Recovery Mechanism ("EPRM"), and any Shared Savings incentives, Pilot Program costs or other adjustments approved by the Commission for recovery through the RBA.

A Fall Revenue Report will be filed on or before October 31<sup>st</sup> of each year, and will establish the RBA Rate Adjustment effective January 1<sup>st</sup> of the following year, and a Spring Revenue Report will be filed on or before March 31<sup>st</sup> of each year, and will update the RBA Rate Adjustment effective on June 1<sup>st</sup> of that year to account for changes in Target Revenue approved by the Commission in the Spring Revenue Report.

In this RBA, the target revenue is the annual electric revenue approved by the Public Utilities Commission in the last issued Decision & Order in the Company's most recent test year general rate case, excluding revenue for fuel and purchased power expenses that are recovered either in base rates or in a purchased power adjustment clause; excluding revenue being separately tracked or recovered through any other surcharge or rate tracking mechanism; and excluding amounts for applicable revenue taxes;

Plus: the RAM Revenue Adjustment established and made effective on June 1, 2020 under the RAM Provision;

Plus: the current year's ARA Adjustment provided for in accordance with the ARA Provision;

Plus: the Compounded Portion of the ARA Adjustment from each prior year where the ARA Adjustment was applicable;

Plus: Any approved revenues under the EPRM or predecessor MPR;

Plus: Any Performance Incentive Adjustment provided for in accordance with the Performance Incentive Mechanism Provision;

Plus: Any Pilot Process costs approved for recovery by the Commission;

Adjusted By: Any applicable Earnings Sharing Adjustment from the ARA Provision and other adjustments, including adjustments for Shared Savings Mechanisms ("SSMs"), as applicable, in accordance with Commission's Order authorizing such adjustments.

Other adjustments, if any, are shown in the table *Target Revenue Currently in Effect*, provided in section H. This total amount of target revenue, after the above additions and adjustments, shall also be known as Total Target Revenues.

HAWAII ELECTRIC LIGHT COMPANY, INC.

Transmittal Letter Dated March 31, 2021.

REVENUE BALANCING ACCOUNT ("RBA") PROVISION (continued)

The target revenue shall be revised to correct for any errors in the calculation of the ARA or predecessor RAM Revenue Adjustment, Performance Incentive Adjustment, EPRM or predecessor MPIR Adjustment, recorded adjusted revenues or other RBA accounting determinations (collectively "RBA revenue determinations") for any previous period and for revisions to ARA, RAM Revenue Adjustments, Performance Incentive Adjustments, EPRM Adjustments, or predecessor MPIR Adjustments as a result of subsequent Commission orders that change the basis of previously calculated ARA, RAM Revenue Adjustments, Performance Incentive Adjustments, EPRM Adjustments and/or MPIR Adjustments. For any corrections of errors in previously calculated RBA revenue determinations, the RBA revenue determinations shall be adjusted as of the date that the correct determinations would have been reflected in target revenue or RBA balances. For changes in the ARA, RAM Revenue Adjustment, and/or Performance Incentive Adjustments as a result of subsequently issued Commission orders, the target revenue shall be adjusted as of the effective date of changes that are implemented pursuant to the subsequently issued Commission order.

The Commission and the Consumer Advocate will be notified of the RBA revenue revisions or corrections prior to implementation by the Company. There is no presumption that proposed or identified RBA revenue changes are ultimately warranted or correct. In the Fall Revenue Report and Spring Revenue Report (as further described in Section D. below), the utility will have the burden to demonstrate that any proposed, identified, or implemented changes are warranted and correctly applied. The Consumer Advocate will provide comments regarding the changes with its Statement of Position. The RBA balance and RBA Rate Adjustment will reflect any appropriate modifications to the change made by the utility in the prior period if necessary.
