

SCHEDULE ARD TOU J

Medium Commercial Time of Use

Applicable to general light and/or power loads which exceed 5,000 kWh per month or which exceed 25 kW of demand three times within a twelve month period, but are less than 300 kW and supplied through a single meter.

Existing customers previously served on another rate schedule at the current service location shall start service on this rate schedule at the beginning of the next billing period. In addition, for customers who elect to leave service on this rate schedule, transfers to another applicable rate schedule at the current service location shall be made at the beginning of the next billing period.

Customers who have loads that are less than or equal to 5,000 kWh per month and maximum measured kW demand less than or equal to 25 kW for twelve (12) consecutive months will be transferred to Schedule ARD TOU G at the beginning of the next billing period.

Rate:

CUSTOMER CHARGE:

All Customers - per month	\$51.09/month
Additional charge for Three-Phase Service - per month	\$4.83/month

GRID ACCESS CHARGE: (To be added to Customer Charge)

All kW of billing demand - per kW per month	\$4.25/kW
---	-----------

TOU ENERGY CHARGES: (To be added to Customer and Grid Access Charges)

TIME-OF-USE RATING PERIODS:

Daytime:	9:00 a.m. - 5:00 p.m., Daily
Overnight:	9:00 p.m. - 9:00 a.m., Daily
Evening Peak:	5:00 p.m. - 9:00 p.m., Daily

HAWAIIAN ELECTRIC COMPANY, INC.

SCHEDULE ARD TOU J - (continued)

TIME-OF-USE CHARGES, ¢ per kWh

Daytime Period:	19.2485 ¢/kWh
Overnight Period:	38.4970 ¢/kWh
Evening Peak Period:	57.7455 ¢/kWh

The Daytime Period Time-Of-Use Energy Charge is composed of an ECRC Component of 13.4373 cents/kWh, a PPAC Component of 0.9972 cents/kWh, a DSM Component of 0.0015 cents/kWh, a DRAC Component of (-0.0176) cents/kWh, a REIP Component of 0.0092 cents/kWh, and a Non-Fuel Energy Component of 4.8209 cents/kWh.

The Overnight Period Time-of-Use Energy Charge is composed of an ECRC Component of 26.8745 cents/kWh, a PPAC Component of 1.9945 cents/kWh, a DSM Component of 0.0030 cents/kWh, a DRAC Component of (-0.0352) cents/kWh, a REIP Component of 0.0183 cents/kWh, and a Non-Fuel Energy Component of 9.6419 cents/kWh.

The Evening Peak Period Time-of-Use Energy Charge is composed of an ECRC Component of 40.3118 cents/kWh, a PPAC Component of 2.9917 cents/kWh, a DSM Component of 0.0046 cents/kWh, a DRAC Component of (-0.0527) cents/kWh, a REIP Component of 0.0275 cents/kWh, and a Non-Fuel Energy Component of 14.4626 cents/kWh.

Minimum Charge:

The minimum monthly charge shall be the sum of the Customer and the Grid Access Charges. The Grid Access Charge shall be computed with the Grid Access Charge rate applied to the kW of billing demand for the minimum charge calculation specified below.

HAWAIIAN ELECTRIC COMPANY, INC.

SCHEDULE ARD TOU J - (continued)

Determination of Demand:

The maximum measured kW demand for each month shall be the maximum average load in kW during any fifteen-minute period as indicated by a demand meter. The billing demand for each month shall be the maximum measured kW demand for such month and not less than the minimum billing demand of 25 kW.

The billing kW for the minimum charge calculation each month shall be the maximum measured kW demand for the month and not less than 25 kW.

Power Factor:

When a customer's maximum measured demand equals or exceeds 200 kW, the following power factor adjustment will apply for all succeeding billing periods.

The above Grid Access Charge and Non-Fuel Energy Components of the Time-of-Use Energy Charges are based upon an average monthly power factor of 85%. The customer's power factor adjustment rate shall be calculated as $[(85 - \text{average monthly power factor percentage}) \times 0.10\%]$. The average monthly power factor will be determined from the readings of a kWh and KVARh meter. The KVARh meter shall be ratcheted to prevent reversal in the event the power factor is leading at any time. The power factor will be computed to the nearest whole percent. In no case shall the power factor be taken as more than 100% for the purpose of computing the power factor adjustment rate.

The sum of the customer's Grid Access Charge, as computed under the above rates, plus the Non-Fuel Energy Components of the Time-of-Use Energy Charges (4.8209 cents per kWh in the Daytime Period, 9.6419 cents per kWh in the Overnight Period, and 14.4626 cents per kWh in the Evening Peak Period), plus 10.2278 cents per kWh in all periods, shall be multiplied by the customer's power factor adjustment rate to determine the power factor adjustment to be applied to the customer's bill.

HAWAIIAN ELECTRIC COMPANY, INC.

SCHEDULE ARD TOU J - (continued)

Supply Voltage Delivery:

If the customer takes delivery at the Company's supply line voltage, the customer will receive a credit calculated as the sum of the Grid Access Charge, plus the Non-Fuel Energy Components of the Time-of-Use Energy Charges (4.8209 cents per kWh in the Daytime Period, 9.6419 cents per kWh in the Overnight Period, and 14.4626 cents per kWh in the Evening Peak Period), plus 10.2278 cents per kWh in all periods, multiplied by the applicable percentage below:

Transmission voltage supplied without further transformation	-2.8%
Distribution voltage supplied without further transformation	-2.0%

Metering will normally be at the delivery voltage. When customer's transformers are adjacent to the delivery point, the customer may elect to be metered at a single point on the secondary side of the customer's transformers where such point is approved by the Company. When the energy is metered on the secondary side of the customer's transformers, the above decreases will be -2.3% and -0.5%, respectively.

Network Service Adjustment:

Because of the inherent operating conditions in the downtown area supplied from the Company's underground network system, the Company will deliver and meter the service to customers in this area at 120/208Y or 277/480Y volts. The customer will be assessed a network service adjustment equal to 0.9% multiplied by the sum of the customer's Grid Access Charge, plus the Non-Fuel Energy Components of the Time-of-Use Energy Charges (4.8209 cents per kWh in the Daytime Period, 9.6419 cents per kWh in the Overnight Period, and 14.4626 cents per kWh in the Evening Peak Period), plus 10.2278 cents per kWh in all periods.

HAWAIIAN ELECTRIC COMPANY, INC.

SCHEDULE ARD TOU J - (continued)

Bill Protection:

For the first six billing months a Customer is on this Schedule, the Customer's bill on this schedule will be compared to what the Customer's bill would have been if the Customer were billed as a Schedule J customer. If the Customer's bill is more than 4% higher than what the Customer's bill would have been under Schedule J, the Customer will receive a billing credit of such an amount that the Customer's bill will be 4% higher than what the Customer's bill would have been if the Customer had been billed as a Schedule J customer.

Surcharges, Clauses, and Fees:

All rates and charges applicable to this rate schedule from surcharges, clauses, and fees approved by the Commission shall be included in the customer bill, including those from the Energy Cost Recovery Clause, Purchased Power Adjustment Clause, Revenue Balancing Account Provision, Integrated Resource Planning Cost Recovery Provision, Public Benefits Fund Surcharge, Renewable Energy Infrastructure Cost Recovery Provision, and Green Infrastructure Fee Surcharge.

TERMS AND CONDITIONS:

1. A customer who is assigned to Schedule ARD TOU J as part of the Advanced Rate Design TOU Study is required to be metered using an advanced meter for the customer to take service under this schedule.
2. A customer may opt-out of this schedule.
3. The Company may request that customers respond to or participate in customer surveys and other data collection and program evaluation efforts related to their energy usage for the purpose of improving the Time-of-Use Service or successor time-of-use programs.

HAWAIIAN ELECTRIC COMPANY, INC.

SCHEDULE ARD TOU J - (continued)

Term of Contract:

Not less than five years beginning from the service start date. If service is terminated before the end of the initial contract term, the customer shall be charged a termination fee equal to the total connection costs incurred by the Company to serve the customer less customer advance and/or contribution paid by the customer.

Rules and Regulations:

Service supplied under this rate shall be subject to the Rules and Regulations of the Company.

HAWAIIAN ELECTRIC COMPANY, INC.
