Objectives

- ◆ Energy Price Stability
- ◆ Reliability & Resilience
- ◆ Retire Fossil Fuel Generation
- ◆ Meet Renewable/Decarbonization Goals
- ◆ Acknowledge Economic Uncertainty

O'ahu Stage 3 RFP Highlights

O'ahu Island

Firm and Variable Renewable Projects

- Minimum 475 Gigawatt hours of Renewable Dispatchable Generation (RDG)
- 500-700 Megawatts of firm capacity

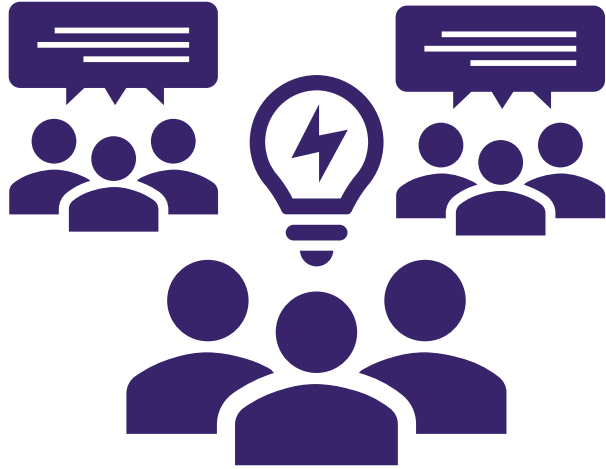

- RDG in operation by 2027
- Firm in operation by 2029 and 2033

Renewable Energy Procurement Process

Public Comments

- ◆ Overall Evaluation Process
- ◆ Eligibility and Threshold Requirements
- ◆ Price vs. Non-Price Criteria

Eligibility and Threshold Requirements

What requirements does a Proposer have to meet with their project?

- ◆ Proposers must:
 - Eligibility Requirements
 - General and administrative
 - Threshold Requirements
 - Sufficiently Developed
 - Demonstrated Technology
 - Acceptable Execution Risk

Price vs. Non-Price Criteria

How is the project price compared to non-price issues, such as community outreach and cultural resource impacts?

Scoring is weighted:
60% Price & 40% Non-Price

Community outreach is part of the RFP process

Update Community Outreach Plan

Perform Media Outreach and Advertising

Develop Project Website

Update Stakeholders
Hold Community Meetings

Develop Project Presentation

Compile and File Public Comments

Community Benefits Package Proposal

- ◆ **At least \$3,000 per MW, capped at a minimum of \$200,000 per year**
- ◆ **Documented community benefits package highlighting the distribution of funds**
 - Actions and/or programs aimed at addressing specific needs identified by the host community
 - OR to a 501(c)(3) not-for-profit community-based organization(s) to directly address host community-identified needs
