

# UNPLUG

## Eliminate Energy Sneakers

- Unplug power supplies and battery chargers for mobile phones and cameras - these energy sneakers draw power when not in use and after the batteries are fully charged.
- Turn off and unplug coffee makers, microwaves, and toaster ovens when not in use.
- Use a power strip to conveniently cut power from hard-to-reach outlets.

Office equipment that has earned the ENERGY STAR® label helps eliminate wasted energy through special power management features. Overall, ENERGY STAR® qualified office products use about half as much energy as other equipment.
